DETAILED ACTION

Response to Amendment

This communication is in response to the amendment of 6/28/2010. All changes made to the Claims have been entered. Accordingly, Claims 56, 57, 59-63, 65-67 are currently pending in the application.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jennifer K. Stewart on 8/4/2010.

The application has been amended as follows:

2. -Claim 63 line 1, the phrase "The method of claim 52," has been changed to --
The method of claim 62,--.
3. -Claim 67 line 1, the phrase "The method of claim 56," has been changed to --
The method of claim 66,--.

Allowable Subject Matter

3. Claims 56, 57, 59-63, 65-67 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

4. 56 and 62, are allowable over the prior art of record since the cited references taken individually or in combination fail to particularly disclose **determining a combination of transmit power per bit and transmission data rate adjustments that adjust the average power consumption of the transmitter to a desired point on a total transmit power curve**. It is noted that the closest prior art, Funk (US 6169884), in view of Ohno (US 5848062) discloses a transceiver and method for substantially reducing heat buildup within a mobile radio device having a radio transmitter. However the stated prior art fails to disclose or render obvious to the above underlined limitations as claimed.
